

0.5~3HP Sub.ejector pump

*Optional
TOS-EFJ
Sub.Ejector pump with
guide rail device
(0.5~3HP)*

5~7.5HP Sub.ejector pump

*Optional
TOS-EFJ
Sub.Ejector pump with
guide rail device
(5~7.5HP)*

Features

- All models adopt silicon carbide(SIC) dual mechanical seals to ensure best seal effect and reduce abrasion from wastewater
- High oxygen transfer rate, BOD easy to remove from wastewater treatment.
- Mixing and stirring applications for uniform MLSS due to fine bubbles convention.

Motor Spec.

- 2P dry type motor, with overload protector.
- Insulation: F class.
- Protection: IP68.
- Frequency: 50Hz.
- Voltage: 1Phase(0.5~2HP); 3Phase(All models).

Parts and Materials List

Applications

- Oxygen aeration of wastewater for wastewater treatment. Oxygenated for aquaculture such as fish, shrimp farming or hydroponics applications.
